

RDA EBC BRAKES

The Brake Product Specialists

Brake Discs & Pads

Over 1800 applications from Alfa to Volvo Australia-wide. RDA Discs & Pads - made for each other!

Brake Drums & Shoes

Largest and most comprehensive range Australia-wide. Box packaging for easy storage. No core deposits.

RDA
CLUTCH

The new RDA Clutch range comprises the top selling clutch applications in Australia. Including standard, RPM, 4WD and commercial.

Slotted Disc Rotors

For Increased dissipation of water, dust and road grime from the contact area of braking system. As well as combating "out-gassing" which reduces pad bite. **Available for all existing RDA vehicle applications.**

Turbo Grooved Sports Rotors

With all the advantages of slotted rotors plus they're zinc plated and gold passivated to avoid corrosion. **Available for all existing RDA vehicle applications.**

Ultimax
Brake Pads

Produce minimal dust, have low rotor wear and universal heat range abilities, meeting original equipment standards.

EXTREME
Brake Pads

Heavy duty brake pads, with a shimmed backing plate. Ideal for those who brake heavily, carry heavy loads or tow boats/trailers often. Supported by an 18 month, 30,000 km warranty.

GREEN
STUFF

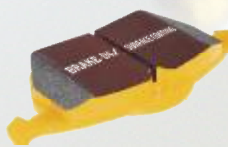

Road sport upgrade brake pad for vehicles up to 750kg. Higher quality than original equipment.

Red
STUFF

A brake pad upgrade for highly tuned sedans or performance cars, the best choice for fast road use and occasional track use.

Yellow
STUFF

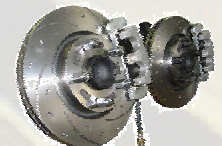

A brake pad upgrade for race cars or performance cars that are used regularly on the track.

Blue
STUFF

For use in dedicated race cars & track use only.

Commodore Upgrade Kits

Upgrade earlier Commodore models to VE brakes. Standard or slotted rotors available. Includes everything you need for fitment.
